

2020-21 School Re-Opening Plans - Public School Districts and Charter Schools - 2020 re-openingIntroduction - Introduction and Background

Introduction and Background

In this survey, LEAs will provide the following essential information about the comprehensive re-opening plans developed for the 2020-21 school year:

A link to the public website where each school plan has been publicly posted; and

A set of mandatory assurances affirming that the LEA will address, in each re-opening plan, all of the mandatory elements outlined in [NYSED's Reopening Guidance document](#) and in the guidance released by NYS Department of Health (DOH) on July 13, 2020.

Please note that unlike the previous processes used to collect Continuity of Learning, Child Care, and Child Nutrition plans, the information submitted through this survey will not include detailed narratives or descriptions of specific actions to be taken by a school or district as part of their Reopening Plan. Instead, those details must be articulated in the materials that are publicly posted on the school/district website. This approach will allow LEAs to develop plans in their preferred format, to rapidly address changes that may be needed based on local needs, and to update their plan materials during the school year.

Once LEAs have completed and submitted their survey within the NYS Business Portal, a confirmation notice indicating that the completed survey has been received by NYSED will be generated and sent to the Chief Executive Officer.

Plans should be implemented with fidelity upon submission and should be considered approved unless the LEA is notified that modifications are necessary to ensure compliance with this guidance.
